# A delightful reference for HTML Symbols, Entities and ASCII Character Codes

HTML Arrows is a comprehensive reference website for finding HTML symbol codes and entities, ASCII characters and Unicode hexadecimal values to use in your web design. Browse in grid or table format, search for HTML symbols, and check out [Toptal's](#) professional designers' [blog](#) for digital design insights, from detailed design tutorials to in-depth coverage of new trends, techniques, and technologies. Or just keep scrolling to find your favorite HTML arrow symbol, arrow entity, Unicode and ASCII arrow character codes.
